	houses after studying Santali Honours. At present, candidates who study with Santali Honours have the opportunity to work in various government and private organizations.	
--	--	--

General

PO-1	The main objective of studying Santali in pass course at graduate level is to acquire general knowledge about Santali language and literature. Which will later help the students in their professional life.	✓
PO-2	Studying Santali means I can assume that his language and writing skills will be good. So if you have a desire to write, you can easily progress towards becoming a writer. Writing can be started with various newspapers, social media, stories and novels. In today's era, you can make your own page on social media and try to earn by slowly writing. This is a very good opportunity to earn working from home nowadays.	✓
PO-3	Proofreader jobs can be found in any publishing house with Santali reading.	✓
PO-4	Screenwriting jobs can be found in any Santali production house or media house.	✓
PO-5	Translation work can be found from books, writings in different languages into Santali. But in that case there should be knowledge about the language from which the translation will be done.	✓
PO-6	can be worked out, as linguists. There are many opportunities to work with Santali in this department. The history of Bengal gives an opportunity to work on the stratification of the Santali language etc.	✓
PO-7	If you have good language skills, you can get a job in advertising agencies very easily. If you have a talent for writing poetry, you can get a job as a tag line writer for an advertising agency. Apart from this, the demand of Santali language in all the news organizations of the present era is increasing continuously. But in this case it is very important to have a proper knowledge about the world of news.	✓
PO-8	One can work as a content writer, freelance content writer in any education firm or website design company, IT firm. The future of the content writing profession is very bright right now. Also, taking a course in digital marketing can increase job	✓

Programme Outcomes (PO) for B.A. Political Science (Hons & Gen) Course

PO	Summary	Description
PO1	Knowledge of Specialized Discipline	After completing the course students will be able to gather a sound knowledge of political science in both theory and practice.
PO2	Sound Comprehension & Communication Skills	They will be able to comprehend the hidden structures of political phenomena particularly and social phenomena in general. The course also enables them to understand the underlying factors of socio- political problems of India in particular and world in general. It also gives them good communication skill which they can use in interacting with the people of the society on different socio-political issues.
PO3	Critical Reasoning & Problem Analysis	The course will give them knowledge of critical reasoning, which will enable them to grasp a problem critically and take logical and best decision whenever needed.
PO4	Develop Interdisciplinary Knowledge	In order to explain a particular social issue or in other word to cognize the social reality social, economic, culture and political knowledge is necessary. Through this course students will able to construct an interdisciplinary approach.
PO5	Socio-Cultural Applicability	To apply the acquired knowledge to solve the ongoing socio-cultural problems of the society in general.
PO6	Ethical Values	To develop the culture of value-based thinking, understand the pros and cons while taking decisions, and lead a sound value based ethical life.
PO7	Research & Life-long Learning	The process of theory building, various techniques of research methodology will enable the students to carry out research in latter period of their life and make them curious to unfold socio-political reality around them.

PO8	Familiarity with Recent Developments	Students will acquire knowledge about recent development of theory and practice (the knowledge of government and politics) in the field of Political Science.
PO9	Environmental Awareness & Sustainability	Politics play a determinant role in all environmental problems, because it is politics which takes decision over the environmental problems and takes the path of sustainable solution such as energy provision (reducing carbon emission, reducing the use of fossil fuel, ban of missile testing under the sea, etc.), environmental protection. This knowledge will enable students to understand the problem comprehensively.

Attainment of PO & COs of B.A. Mathematics Honours & General:

Honours

PO1	Teaching & Higher Study : To prepare the students for a successful career in teaching or other professions as well as to motivate them for higher education .	✓
PO2	Knowledge Acquisition : To provide strong foundation in basic sciences and mathematics. Gain a deep understanding of fundamental mathematical concepts, theories and techniques.	✓
PO3	Problem Solving: To identify, formulate and analyze complex scientific problems reaching substantiated conclusions. Develop strong analytical and problem-solving skills to apply mathematical principle in various context.	✓
PO4	Individual and team working ability: To develop individual and team work by functioning effectively as an individual or as a member in a group in computer laboratory classes.	✓
PO5	Solving Mathematical Problem: To develop computational, logical and analyzing ability in solving different problems of Mathematics.	✓
PO6	Communication Skill : To develop communicating ability, prepare effective presentations, and give and receive clear instructions. Effectively communicate mathematical ideas and solutions both orally and in writing.	✓
PO7	Technology Integration: To develop the ability to engage in independent and life-long learning in the current context of technological change. Utilize the mathematical software and tools to enhance problem solving capacity.	✓
PO8	Scientific temperament : To inculcate scientific temperament in the young minds and outside the scientific community.	✓
PO9	Critical thinking: Cultivate the ability to think critically, logically and abstractly when approaching mathematical problem.	✓
PO10	Mathematical Rigor : Demonstrate a high level of mathematical rigor in proof construction and analysis.	✓
PO11	Research Skill: Acquire proficiency in conducting independent mathematical research and investigations.	✓
PO12	Collaboration: Work collaboratively in a team environment, especially in interdisciplinary setting involving mathematics.	✓
PO13	Ethical Consideration: Understand and apply ethical considerations in mathematical research and applications.	✓

Attainment of PO & COs of B.A. Mathematics Honours & General:

General

PSO1	To apply knowledge in emerging and varied areas of Mathematics for higher studies, research and industries related to software applications.	✓
PSO2	To develop leadership and managerial skills and understanding the need for lifelong learning to be a competent professional.	✓
PSO3	To equip with front level communication technologies (ICT) for innovating ideas and solutions to existing/novel challenges.	✓
PSO4	To be acquainted with good laboratory practices.	✓

CCFUF

Hons

PSO1	To apply knowledge in emerging and varied areas of Mathematics for higher studies, research and industries related to software applications.	✓
PSO2	To develop leadership and managerial skills and understanding the need for lifelong learning to be a competent professional.	✓
PSO3	To equip with front level communication technologies (ICT) for innovating ideas and solutions to existing/novel challenges.	✓
PSO4	To be acquainted with good laboratory practices and develops proficiency in handling data using software programming plotting and data manipulation tools. It improves critical thinking and analytical skills through the application of software programming to real world problem.	✓

CCFUF

Genral

PSO1	To apply knowledge in emerging and varied areas of Mathematics for higher studies, research and industries related to software applications.	✓
PSO2	To develop leadership and managerial skills and understanding the need for lifelong learning to be a competent professional.	✓
PSO3	To equip with front level communication technologies (ICT) for innovating ideas and solutions to existing/novel challenges.	✓
PSO4	To be acquainted with good laboratory practices.	✓

Department of Chemistry
Govt. General Degree College, Salboni
Program Outcomes

PO-1: Students will develop critical thinking skills and the ability to solve complex problems in chemistry by applying theoretical knowledge to practical situations.

PO-2: Students will possess strong laboratory skills, including the ability to perform experiments, analyse data, and interpret results using modern techniques and instrumentation.

PO-3: Students will be able to select, design and apply appropriate experimental techniques along with IT tools to solve chemical problems.

PO-4: Students will recognize the interdisciplinary nature of chemistry and its connections to other fields such as biology, physics, environmental science, and materials science.

PO-5: Students will effectively communicate scientific ideas, both orally and in writing, to diverse audiences including peers, instructors, and the broader community.

PO-6: Students will be able to conduct research, design experiments, and evaluate scientific literature in order to contribute to the advancement of knowledge in chemistry.

PO-7: Students will be able to communicate effectively through report writing, documentation and effective presentations.

PO-8: Students will demonstrate professionalism in their interactions with colleagues and the broader community.

PO-9: Program will provide knowledge and skills to the students that will enable them to undertake further studies in chemistry on related areas or multi-disciplinary areas that can be helpful for self-employment, entrepreneurship or further studies in the same domain.

PO-10: Students will be prepared for a variety of career paths including industry, academia, government, and healthcare, as well as for further study in graduate or professional programs.
