On January 11, 2023, the Government General Degree College Salboni collaborated with O2 Academia to host a very successful Career Guidance Programme. This event intended to offer students valuable guidance and insights on potential career paths and opportunities in their future. The main goal was to educate students on different career paths, provide them with essential skills, and assist them in making informed choices about their future careers. The OIC of our college initiated the program addressing the significance of career guidance in the current competitive environment. The opening statements from OIC created a motivational atmosphere for the event, with faculty members present showing dedication to student growth.

The students actively participated in the event and showed enthusiasm during all the sessions. The high attendance showed that students were very interested in career planning and development. The Programme started at 12:30 PM and finished at approximately 2:30 PM. O2 Academia experts held informative sessions on different career paths, covering new industry trends and necessary job market skills. The informational sessions were designed to provide students with the essential skills needed to navigate the competitive job market effectively.

Moreover, students had the opportunity to participate in open Q&A sessions for asking questions and getting personalized advice from experts. These interactive portions were especially helpful, allowing students to clear up any confusion and get personalized guidance. The program ended on a positive note, with students showing appreciation for the valuable knowledge they acquired. The photos and attendance sheets provided below serve to emphasize the event's participation and positive outcome.

On January 10, 2024, Government General Degree College Salboni, in collaboration with O2 Academia, organized a successful mock test for the Food Sub-Inspector. The purpose of this program was to give students a clear understanding of the exam process and help them determine how prepared they are for the real test. The test started at 12:15 PM and finished at approximately 2:00 PM.

The practice test aimed to replicate the actual exam conditions, enabling students to encounter the stress and structure of the Food Sub-Inspector exam. It gave students a valuable chance to recognize their strengths and weaknesses, helping them concentrate on preparing better. The OIC started the program with a short introduction, emphasizing how mock tests can boost students' confidence and performance in competitive exams.

A total of 175 students participated in the mock test. During the feedback session, they expressed that the test was very helpful in achieving their goals and clearing their doubts. Some photos and the attendance sheet are attached below.
